PROCURE® PRODUCTS

Cranberry Tablets

Cranberry Tablets

Procure Cranberry tablets are a dietary supplement that contains concentrated cranberry extract. These tablets are commonly used to support urinary tract health. Cranberries are known for their high content of antioxidants and certain compounds that may help prevent the adhesion of bacteria to the urinary tract walls, potentially reducing the risk of urinary tract infections. Cranberry tablets are often used as a convenient alternative to consuming cranberry juice.

PROCURE PRODUCTS SYMBOL OF EXCELLENCE

Benefits:

- Helps support urinary tract health†
