

Soft Silicone Foam Dressing with Adhesive Border

Soft Silicone Foam Dressing with Adhesive Border is for the management of moderate to heavily exuding wounds and consists of a flexible, highly absorbent, advanced soft silicone foam layer. The foam pad consists of a vapor-permeable, moisture-proof outer film, and a silicone adhesive border that adheres to the surrounding skin, allowing exudate to be absorbed, while preventing leakage. The dressing is easy to apply and remove minimizing pain, maceration and the risk of secondary damage to the wound area.

Features & Benefits:

- Sterile, self-adhesive and showerproof dressing with a low profile border to seal the wound area
- Highly absorbent for moderate to heavy exudate, while still allowing breathability to promote healing
- Supports and accelerates moist wound healing
- Conforms and protects fragile tissue and is suitable for wounds on various body parts
- Provides thermal insulation, absorbing high levels of drainage
- Effective and sustained protection for several days, allowing for optimal healing without disturbance

Indications:

- Exuding and Traumatic Wounds (*Effectively Seals Cavity Wounds*)
- Pressure and Diabetic Ulcers
- Venous and Arterial Ulcers
- Partial and Full Thickness Wounds (*including Second and Third Degree Burns*)

Available Sizes:

Products	Size	Reorder #	Units
Soft Foam/Border	2in x 2in	PCHF3300	10/Box, 80 Boxes/Case
Soft Foam/Border	2in x 5in	PCHF3301	10/Box, 40 Boxes/Case
Soft Foam/Border	3in x 3in	PCHF3302	10/Box, 80 Boxes/Case
Soft Foam/Border	4in x 4in	PCHF3303	10/Box, 40 Boxes/Case
Soft Foam/Border	4in x 8in	PCHF3304	5/Box, 40 Boxes/Case
Soft Foam/Border	4in x 12in	PCHF3305	5/Box, 40 Boxes/Case
Soft Foam/Border	6in x 6in	PCHF3306	10/Box, 20 Boxes/Case
Soft Foam/Border	6in x 8in	PCHF3307	5/Box, 40 Boxes/Case
Soft Foam/Border	7.2in x 7.2in	PCHF3308	5/Box, 40 Boxes/Case
Soft Foam/Border	Heel-5.3in x 6in	PCHF3309	5/Box, 40 Boxes/Case
Soft Foam/Border	Sacral(sm)-7.2in x 7.2in	PCHF3310	5/Box, 40 Boxes/Case
