

Lactobacillus Tablets

Lactobacillus is a bacteria that helps maintain an acidic environment in the body, which can help prevent the growth of harmful bacteria. *Lactobacillus* has been used as a probiotic, or "friendly bacteria." *Acidophilus* and *Bulgaricus* are two different species of *Lactobacillus* that are combined in this product.

Lactobacillus has been used as a probiotic to aid in digestion, to help prevent diarrhea, and to help relieve symptoms of irritable bowel syndrome. This supplement may work by helping the body maintain normal consistency of bacteria in the stomach and intestines.

Features & Benefits:

- Gentle probiotic support for digestive health[†]
- Helps prevent the growth of harmful bacteria[†]
- Aids in digestion, helps to prevent diarrhea, and helps to relieve symptoms of irritable bowel syndrome[†]
