

# Loratidine Antihistamine

**Procure Loratidine** tablets are antihistamine medications used to alleviate allergy symptoms. The “non-drowsy” designation indicates that this medication is less likely to cause sedation or drowsiness compared to older generation antihistamines.

### Benefits:

- Treats allergy symptoms, including runny or stuffy nose, sneezing, watery eyes, and itching of the eyes, nose or throat.†
- Non-drowsy†
- Temporarily relieves the symptoms of hay fever†
