

Nurse Caps

Nurse Caps, also known as nursing caps or hair nets, are designed to provide protection against dirt and contaminants in various settings while preventing the shedding of hair. These caps feature an elastic band for a universal fit and are made from lightweight, breathable materials to ensure nurses' comfort during their duty. Nurse caps are ideal for professionals in the medical field.

Features & Benefits:

- Made of lightweight non-woven material, soft, breathable, convenient for extended use.
- Features an elastic band, providing a snug and comfortable fit that can prevent the falling of hair, giving you reassuring protection.
- Disposable and single-use to reduce the risk of cross-contamination and infection transmission.
- Universal Size
- Not made with natural rubber latex (Latex Free)
