

Fluff Bandage Roll

Procure Fluff Bandage Rolls are designed to be used as a primary or secondary dressing. Made of 100% prewashed, fluff-dried woven cotton provides fast wicking action for maximum absorbency. The low-linting design helps minimize linting and loose threads, reducing the risk of fibers being left in the wound bed.

The airy and extra fluff provides conformability for securing dressings in place, and cushioning of the wound. Ideal for bandaging heads, limbs and difficult-to-dress wounds.

Features & Benefits:

- Crinkle-weave pattern increases bulk to cushion and protect wounds
- Finished ends reduce risk of linting and wound contamination
- Open-weave design provides fast wicking action and excellent absorbency.
- Bulk & Airy cushioning provides conformability to improve wound site protection
- Available in sterile and non-sterile options
- Not made with natural rubber latex (Latex-Free)
