

Blue Can Liners

(Soiled Liner)

Blue High-Density Can Liners, are crafted from a durable high-density polyethylene (HDPE) material. They are built to withstand the demands of heavy loads and prevent punctures and tears. The vibrant blue color provides a distinctive appearance, making it easy to differentiate between general waste and soiled liner. Equipped with a star seal bottom, these liners offer excellent leak resistance and distribute weight evenly, reducing the risk of spills and messes. This feature enhances cleanliness and prevents unpleasant odors, contributing to a more hygienic and inviting space.

Features & Benefits:

- Star-Sealed Bottom
- Color Coded for Soiled Liners
- Convenient Coreless Roll Dispensing
- Use in Hamper Stands or Receptacles
- Not Made with Natural Rubber Latex
