

Vitamins A & D Ointment

Procure Vitamins A & D Ointment is a topical Skin Protectant that combines the benefits of vitamin A and vitamin D. It is commonly used for its skin-soothing and protective properties. The unique Procure formula contains Lanolin, which is used to treat dry, itching, and irritated skin, while helping nourish and moisturize the skin. Promoting the healing of minor cuts, burns, and dry or irritated skin, the ointment forms a protective barrier on the skin's surface aiding in the prevention of moisture loss and providing relief from discomfort. It is a versatile product often used for general skincare and as a protective ointment for minor skin issues.

Benefits:

- Skin protectant ointment for cuts, scrapes, burns, and skin irritation
- Ideal for tattoo aftercare or as a diaper rash ointment
- Available in 5 g. packets, 4 oz. tubes, and 15 oz. jars
