

Graduated Medicine Cups

Procure Clear Graduated Medicine Cups are made of high-quality, transparent plastic that allows caregivers to easily monitor fluid intake. They are conveniently disposable to meet the hygienic and convenience needs in a healthcare setting by eliminating the need for time-consuming washing and sanitizing.

Ribbed designed for an improved grip. Stackable, making them easy to store and access in a fast-paced medical environment.

Benefits:

- Clear Graduations allows caregivers to easily measure fluid intake.
- Designed with a rolled lip for comfortable drinking.
- Conveniently used in many types of institutional settings and offices.
- Not made with natural rubber latex. (latex-free)
