

Stretch Vinyl Examination Gloves

ProCure Stretch Vinyl Examination Gloves are made from a vinyl formula specifically designed for more stretch and flexibility. They provide a soft, latex-free and powder-free solution for your disposable glove needs. Most commonly used in medical, dental, and laboratory settings, as well as for general purposes. Vinyl gloves provide a barrier of protection against contaminants and are an excellent alternative for individuals with latex allergies or sensitivities. These gloves are comfortable to wear, offer good dexterity, and are suitable for tasks that require a reliable and hygienic glove option.

Stretch
