

Retention Tape

Soft Cloth Non-Woven Adhesive Dressing

ProCure Retention Tape is a soft cloth, non-woven adhesive dressing designed to securely hold primary dressings and medical devices in place. Its breathable, flexible material conforms easily to body contours, ensuring patient comfort during extended wear. The gentle adhesive provides reliable fixation while minimizing skin irritation, making it ideal for use on sensitive or fragile skin in a variety of clinical settings.

ENHANCED PATIENT COMFORT

Featuring a hypoallergenic adhesive that is gentle on the skin, and allows moisture/air to pass through. Easy-release S-curve liner for hassle-free application.

Not made with natural rubber latex.

Features & Benefits:

- Soft, non-woven cloth material for patient comfort
- Strong adhesive for secure fixation of dressings
- Breathable design promotes healthy skin
- Ideal for securing dressings, bandages, or medical devices
- Flexible and easy to use for various applications
