

SAFETY DATA SHEET

1. IDENTIFICATION OF THE SUBSTANCE AND COMPANY

Product Name	ProCure Waterproof Foam Dressing, Adhesive Border
Product Code	PCHBF44, PCHBF66, PCHFRF4
Company Name (Supplier of SDS)	Twin Med LLC.
Address	11333 Greenstone Ave. • Santa Fe Springs, CA 90670
Contact	1-877-TwinMed (894-6633)
Emergency	1-877-TwinMed (894-6633)
Relevant Use	Manage wounds and protect from outside contaminants

2. COMPOSITION / INFORMATION ON INGREDIENTS

2.1 Ingredients

Nonwoven foam dressing with border

Main Ingredients: Polyurethane film, Nonwoven, Polyurethane foam and Release paper

2.2 Recommended use and restriction of use

Recommended use: Wound dressing

Restriction of use: It is not recommended to use on infectious wound, patients with a known hypersensitivity to the product itself or its components and on third-degree burns

3. HAZARD IDENTIFICATION

3.1 Emergency overview

Main Ingredients polyurethane foam is not manufactured to contain a reportable hazardous component as defined in 29 CFR 1910.1200.

3.2 Invasive ways: Ingestion, skin contact.

3.3 Health harm: None known

3.4 Environment hazard: This product is not considered to be dangerous to the environment.

3.5 Burning explosion harm: Flammable

4. FIRST AID MEASURES

4.1 Skin contact: Contact with skin is not hazardous.

4.2 Eye contact: If irritation occurs, flush with water. Should irritation persist, consult a physician.

4.3 Oral: If symptoms occur upon ingestion, consult a physician.

4.4 Inhalation: Product is not respirable. However, should inhalation occur and victim is not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a physician.

SAFETY DATA SHEET

5. FIRE FIGHTING MEASURES

Conditions of flammability: Foam will melt then burn under conditions of heat and oxygen.

Extinguishing Media: Suitable extinguishing media are water spray, sand, dry powder, carbondioxide.

Special Fire Fighting Procedures: Wear full protective equipment and a self-contained breathing apparatus.

Flash point and method of determination: flash point(method used) 500 ° F COC

Hazardous combustion products: Combustion products include toluene, carbon monoxide, hydrogen cyanide, and nitrogen oxide fumes due to urethane contact.

Unusual Fire and Explosion Hazards: No unusual fire or explosion hazards are anticipated.

6. ACCIDENTAL RELEASE MEASURES

The product is a solid and insoluble product.

Therefore, uncontrolled release (into air or water) is not applicable.

7. HANDLING AND STORAGE

7.1 Handling

Precaution for safe handling: Keep away from heat and direct sunlight. Avoid contact with eyes.

Information about fire and explosion protection: Normal measures for preventive fire protection.

7.2 Storage: Product should be stored in dry conditions.

7.3 Incompatibilities: Avoid strong oxidizers and flame.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

OSHA's Permissible Exposure Limits (PELs): No specific controls values apply.

Threshold limit values (TLVs): No specific controls values apply.

Appropriate engineering controls: No specific controls values apply.

Personal protective equipment (PPE): Avoid contact with eyes. Do not need special protection when contact with body and hand.

SAFETY DATA SHEET

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Solid
Color: Main Ingredients: white
Odour: None
Melting point/range: Not defined
Boiling temperature: Not defined
Ignition temperature: Not defined
Flame point: Not defined
Explosion limits: Not applicable
Vapor pressure(20°C): Not applicable
Density(20°C): Not defined
Solubility in water(20°C): Insoluble
PH value: Not defined

10. STABILITY AND REACTIVITY

Stability: Chemically unstable under conditions of combustion. Otherwise, stable.
Incompatibility (*Materials to Avoid*): Toluene, Carbon Monoxide, Hydrogen Cyanides, Nitrogen Oxides.
Hazardous Polymerization: No hazardous reaction or polymerization.

11. TOXICOLOGICAL INFORMATION

Inhalation: Not applicable
Ingestion: Not applicable
Skin: No evidence of causing delayed dermal contact sensitization in the guinea pig.
Health Hazards (*Acute and Chronic*): L929 MEM Elution test considered non-cytotoxic.

12. ECOLOGICAL INFORMATION

Ecotoxicity: Not determined
Mobility: Not applicable
Persistence and degradability: Parts of the product will slowly degrade UV-light.
Bioaccumulative potential: Not applicable
Results of PBT assessment: Not determined
Other adverse effects: Adverse effects are not to be expected.

SAFETY DATA SHEET

13. DISPOSAL CONSIDERATIONS

Disposal should be in accordance with applicable regional, national and local laws and regulations.
This product is received as a non-hazardous material.

14. TRANSPORT INFORMATION

The material is not a hazardous good by any means for transportation. The product does not have any restricted classification.

15. REGULATORY INFORMATION

This product is not regulated by DOT as a hazardous material.
Polyurethane foam does not contain any ingredients at levels which would require reporting under SARA III and contains no "Extremely Hazardous Substances" under SARA III.

16. OTHER INFORMATION

None.
