

Hydrogel Sheet Wound Dressing

**Cools on
Contact**

ProCure Hydrogel Sheet Wound Dressing offers a cool and soothing effect, making it an ideal choice for reducing local pain in superficial wounds. It effectively absorbs moisture from low-exuding wounds, helping to maintain a balanced wound environment. The transparent design allows for easy monitoring of the wound site, ensuring that caregivers can quickly assess healing progress without needing to remove the dressing.

Additionally, the dressing is easy to apply and gentle on fragile skin, reducing the risk of further irritation or damage.

ENHANCED PATIENT COMFORT

This soothing hydrogel sheet cools on contact and its soft, flexible material gently conforms to the skin for a comfortable, non-adherent fit that supports healing.

Features & Benefits:

- Cool and soothing to reduce local pain in superficial wounds
- Absorbs moisture from low-exuding wounds, maintaining an optimal healing environment
- Transparent design for easy monitoring of the wound site
- Easy to apply, ensuring convenience for both patients and caregivers
