

Lemon Glycerin Swabsticks

Oral Demulcent, Triple Pack

ProCure Lemon Glycerin Swabsticks are used for temporary relief of minor discomfort and protection of irritated areas in sore mouth and sore throat. The swabsticks are coated with a lemon-flavored glycerin solution that helps moisten and refresh the mouth, making them ideal for patients who have difficulty drinking fluids, such as those in a hospital setting or under palliative care. The lemon flavor offers a pleasant taste while the glycerin helps to lubricate the oral tissues, alleviating dryness and promoting oral comfort. These swabsticks are typically used for maintaining oral hygiene and comfort, especially when regular mouth care is challenging.

Features & Benefits:

- Single-Use Swabsticks
- Coated with a lemon-flavored glycerin solution
- Soft and gentle on the mouth and oral tissues
- Easy-to-use design, ideal for patients with limited mobility or difficulty swallowing
- Lubricates and moisturizes oral tissues, promoting comfort and preventing irritation
- Ideal for use in hospitals, nursing homes, or home care settings
