

No Sting Alcohol-Free Skin Protective Barrier Swabs, Wipes & Spray

ProCure No Sting Skin Protective Barrier products are versatile, alcohol-free, liquid film forming skin protectants for minor wound and intact skin. These products may be used on adults, children, and full-term infants from one month with normal skin.

Intended to act as a protective interface between minor wounds or intact skin and body's wastes, fluids, adhesive dressings, drainage tubes, catheters, and ostomy products to protect the wound from bacteria and dust, provide protection from adhesive trauma, prevent maceration of periwound skin, promote atraumatic dressing removal and help protect areas at risk of friction damage.

Sterile-
Individually
wrapped

Features & Benefits:

- No Sting, Alcohol free formulation
- Waterproof Skin Protectant
- Fast drying and vapor permeable so skin remains breathable.
- "Wand" swab applicator format allows for precision application to sensitive and hard-to-reach areas.
- Transparency allows for continuous visibility when assessing skin.
- Protects periwound skin from friction, body fluids and adhesive stripping.
