

Signature

Dimethicone 5% Cream

ProCure Signature Dimethicone 5% Cream forms a protective, long-lasting barrier that shields skin from wetness while helping to retain and enhance natural moisture. Enriched with Aloe Vera and Vitamins A, D, & E, it soothes and helps prevent moisture-related skin damage, including incontinence-associated dermatitis. The formula also provides temporary relief for chafed, cracked, or irritated skin. With the added benefits of natural and essential oils, it delivers superior hydration to keep skin soft, smooth, and protected.

Complete BATH+ is
