

Universal Foaming Dispensers

Ideal for Hand Soap & Hand Sanitizer

The ProCure Universal Foaming Dispensers are a durable, hygienic solution for high-traffic care settings. Available in both manual and automatic styles, dispense soap and sanitizer, with ease—supporting infection control while reducing single-use waste. Refillable and cost-effective, these dispensers help keep facilities clean, organized, and professional, making them ideal for hospitals, nursing homes, and other medical environments.
